

MMV Technology Showcase – Agenda 8th June 2026

Carbon Storage MMV Technology Showcase 8 June 2026

Plenary programme

08:30	Arrival and coffees
08:40	P&J Live - Safety brief
08:45	NSTA - Welcome & Agenda

09:00 - 10:00 Plenary session P1: Monitoring plans & technology selection

09:00	Spirit - Monitoring requirements and technology screening
09:15	Snam - Snam monitoring plan
09:30	SLB - Innovating for Impact: Delivering Scalable CCS Technologies
09:45	Oxford University & NSTA - UKCS Microseismic JIP

10:00 - 11:00 Showcase session S1 - Geophysical *(coffee will be served)*

11:00 - 12:00 Plenary session P2: Well & reservoir monitoring

11:00	Weatherford - Discrete Fibre Optic P/T Monitoring in a CO ₂ Injection Well
11:15	Silixa - From Field Lessons to the Future of CCUS Monitoring with DFOS
11:30	BakerHughes - Integrated CCS Characterization, Geomechanics, Model-Driven Monitoring
11:45	Equinor - From conformance to appraisal – turning measurement into evidence

12:00 - 13:30 - Showcase session S2 - Well & reservoir *(lunch will be served)*

13:30 - 14:30 Plenary session P3 - Environmental

13:30	NOC Innovation - CCS lessons from Ocean Research
13:45	Reach Subsea - Efficient Offshore CCS Monitoring with Gravity & Remote Operations
14:00	Aquaterra Energy - 'Shallow Borehole Array' MMV solution
14:15	Sentinel & TracerCo - Passive detectors & Chemical fingerprinting

14:30 - 15:30 Showcase session S3 - Environmental *(coffee will be served)*

15:30 - 16:00 - Discussion panel & Closing

15:30	CS MMV Showcase Steering Committee - Reflections from the day and Q&A
-------	---

16:00 End

Showcase sessions

During the three Showcase sessions, 15 minute presentations as per the agenda below, will run in parallel.

We will ask presenters to give their talk twice during the hour.

Showcase sessions (1 to 1.5 hours) will give ample time also for Q&A and engagement of all the other exhibitors.

10:00 - 11:00 Showcase session S1 - Geophysical *(coffee will be served)*

A	TGS - Scaling CCS with Certainty: Global Subsurface Data and Digital Monitoring Solutions
B	Spotlight - Critical window: Early injection focused seismic defines storage site future
C	TensorGEO - Integrated Passive Microseismic for Continuous CO ₂ Storage Assurance
D	Guralp - Offshore Seismic Monitoring Solutions for Carbon Storage
E	K.U.M. & Nanometrics - Offshore microseismic monitoring

12:00 - 13:30 - Showcase session S2 - Well & reservoir *(lunch will be served)*

A	Viridien - Concise CS - Targeted Ultra Sparse Full Wavefield Monitoring
B	Quintessa - Risk-driven MMV plans
C	TGT - Diagnostics for well surveys in carbon storage monitoring
D	Carbon Guardian - C44 Monitoring Platform – Integrated monitoring for secure CCS
E	Imenco - Seabed monitoring instrumentation

14:30 - 15:30 Showcase session S3 - Environmental *(coffee will be served)*

A	Fugro - Marine Seismic Solutions for CCS MMV
B	QuadGeo - Seafloor uplift and gravity monitoring
C	Sonardyne - Better, More Frequent and Lower Cost Monitoring with "On Demand" OBN
D	Resman - Verifiable CO ₂ Storage: Tracers for High-Integrity MMV and Leak Detection

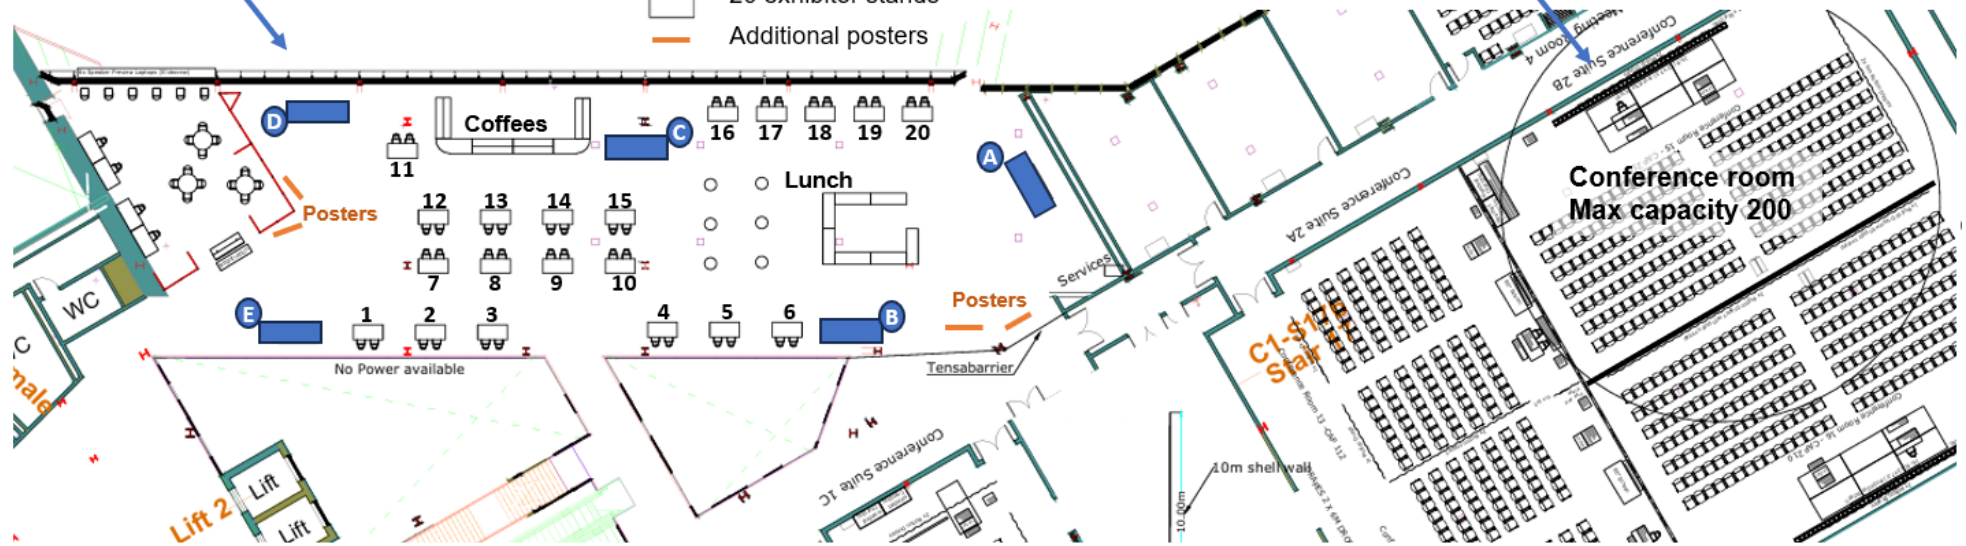

Logistics

- Three plenary sessions in **Room 15** starting at 08.40
- Plenary presentations of **15 minutes** each, with no Q&A. **Please do submit questions using Slido**, we will collate in our workshop notes and share with all attendees
- **Breakout ‘Showcase sessions’**. Attendees move to the atrium on the same level 1, where 5 presentation screens, 20 exhibitor stands and 5 extra posters are located
- **‘Showcase’ presenters** will have the screen for the entire hour and will repeat their presentations twice, taking questions from the floor. This will allow more attendees to listen

P&J Live first floor

Showcase breakout sessions

-  5 presentation screens
-  20 exhibitor stands
-  Additional posters

Attendance

Carbon storage operators

bp
Carbfix
eni
Enquest/Veri
Equinor
Harbour Energy
INEOS
Liverpool Bay CCS
Neptune Energy
Northern Endurance Partnership
Perenco
Petronas
Shell
Snam
Spirit
Storegga
TotalEnergies

Technology suppliers

Aquaterra Energy
Baker Hughes
Cambridge Biomagnetics
Carbon Guardian
Fugro
Imenco
K.U.M.
Nanometrics
NOC Innovation
Ocean Infinity
Quad Geometrics
Quantum Pro
Quintessa
Sentinel Subsea
Silixa
SLB

Guralp
Reach Subsea
Resman
Shearwater Geoservices
SMG Gravity
Sonardyne
Spotlight Earth
Storra
TensorGEO
TGS
TGT Diagnostics
Tracerco
Virdien
VSProwess
Weatherford
Xodus

R&D and Public bodies

Aberdeen University
Bristol University
Leeds University
Heriot Watt University
IEAGHG
Oxford University
NZTC
TNO

DESNZ
NSTA
The Crown Estate

Organisers

NSTA

Baker Hughes

bp

SLB

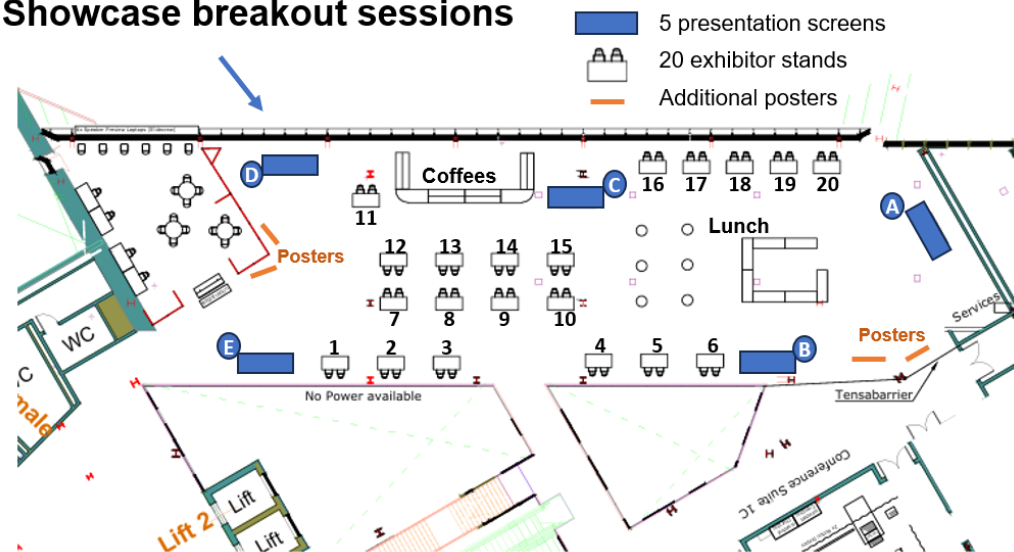

Spirit Energy

EAGE

Exhibitor stands

Stand	Company	Presentation P: Plenary S: Showcase
1	Aquaterra Energy	P3
2	BakerHughes	P2
3	K.U.M. & Nanometrics	S1
4	Fugro	S3
5	Guralp	S1
6	TGT	S2
7	NOC Innovation	P3
8	QuadGeo	S3
9	Quintessa	S2
10	Reach Subsea	P3
11	Sentinel & Tracerco	P3
12	Silixa	P2
13	SLB & Resman	P1 & S3
14	SMG Gravity	
15	Sonardyne	S3
16	Spotlight	S1
17	TensorGEO	S1
18	TGS	S1
19	Viridien	S2
20	Weatherford	P2
