Accelerate Deployment Purpose

To speed up the use of proven technologies that offer a value proposition for offshore energy

Raise Awareness

Raise awareness of existing proven technologies and promote increased uptake

Communicate

Facilitate sharing of Operators' challenges and deployment experiences

Gather subject matter experts to identify technology solutions to key challenges

Learn, Adopt & Excel

Learn from innovations already deployed in other industries

Give confidence to adopt ready to deploy technologies

What we delivered...2024

Emissions Reduction Technology Showcase – May 2024

- 7 deployed emissions reduction case studies – Operators & Technology Providers
- 13 exhibitors

Asset Integrity Workshop – August 2024

Workshop hosted by bp and sponsored by Serica Energy – facilitated session for 40 industry experts to address the question:

“How can we improve offshore production facility performance through better asset integrity delivery at lower cost?”

**NSTA
Technology
Insights -
October 2024**

**Informal Operators
Network –
quarterly
meetings
throughout 2024**

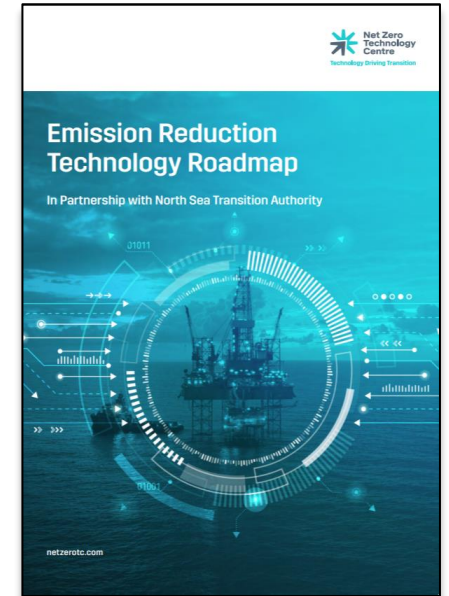

What we delivered...2025

- Emissions Reduction Technology Showcase – February 2025**
- Held in collaboration with the North Sea Transition Workgroup

- 6 deployed emissions reduction technology case studies – Operators & Technology Providers
- 12 exhibitors

- Keynote by Jenni Whitfield of NSTA
- Emissions Reduction Technology Roadmap Launch

Available on www.the-tlb.com

TMN Smart Technology Solutions Showcase (online) – May 2025

Upcoming Events

Remote Operations Technology Showcase - Wednesday 19th November

Location: NZTC Innovation Hub
Hosted by: Clive Sirju (CNOOC)

The event will raise awareness of ready to deploy remote operations technologies that:

- **Reduce operational cost**
- **Improve safety**
- **Reduce operational risk**
- **Reduce emissions**
- **Offer other significant benefits**

Currently the call for case studies and exhibitors is live

For more information contact:
info@the-tlb.com

Production Enhancement Event

Currently in the pipeline, looking to deliver this event jointly with the Wells Task Force

Informal Operators Network

- Inactive to date in 2025
- Restarting and hoping to have a meeting later this month hosted by Serica Energy.
- Mark Wilson (TAQA) is driving the restart
- 10 Operators noted interest in involvement

Technology Insights Event - October 2025

- Online TMN meeting
- Presentation on the NSTA Technology Insights report
- Presentation of consolidated Technology Needs & Listings
- Ask of Operators for upcoming survey

Potential Future Activities and Involvement Opportunities

Potential Future Activities

- Website “call for ideas” and running more “Previously (but not widely) deployed Technologies you need to hear about” online events.
- Facilitated, Topic Specific Workshops
 - Any suggestions for current challenge areas that could benefit from industry experts getting together to discuss?
- Any other suggestions.....please get in touch.

Involvement Opportunities

- Are you interested in being involved in the Accelerate Deployment Workstream?
- Do you have ideas for events/meeting you would like to see run to help accelerate the deployment of ready to go technologies?
- Would you or your company be willing to support, sponsor and/or fund events?

Thank you

Catherine Sherwin
